

Kelin Waterborne Epoxy Gap filler is a high quality, water-based epoxy resin used for filling gaps between tiles, stones, and other hard surfaces. It is designed to provide a durable, long-lasting finish that is resistant to water, stains, and discoloration. The product is easy to apply and dries quickly, making it a popular choice for both professional and DIY projects.

This product is suitable for use in a wide range of applications, including:

- [Toilets](#)
- [Corner](#)
- [Edge of bath](#)
- [Skirting line](#)
- [Ceramic tile](#)
